

Mandatory Commercial Recycling

Businesses & Multifamily Dwellings

The State of California has required Mandatory Commercial Recycling since 2012. You are required to recycle if your property is:

- A business that disposes of **4 cubic yards or more** of solid waste per week

OR

- A multi-family dwelling of **5 units or more**.

Compliance is easy in Lakeport! All businesses and multifamily dwellings must subscribe to trash & recycling pickup services provided by Lakeport Disposal Company.* The City has a franchise agreement with Lakeport Disposal to provide these services. The cost for these mandatory services are included in your monthly utility bill.

A property owner of a commercial business or multifamily residential dwelling may require tenants to source separate their recyclable materials to aid in compliance with this requirement.
