**ORDER OF THE HEALTH OFFICER No. C20-3; A4**

**Addendum A4 Dated April 23, 2020**

**SHELTER-IN-PLACE ORDER UPDATE**

**DATES OF PRIOR ORDERS**

**ORIGINAL ORDER – MARCH 18, 2020 and  
ADDENDUM ORDER (A1) – MARCH 22, 2020  
ADDENDUM ORDER (A2) – MARCH 23, 2020  
ADDENDUM ORDER (A3) – APRIL 06, 2020**

Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code § 120295, *et seq.*; California Penal Code §§ 69, 148(a)(1); Lake County Administrative Code Article I, Section 1-10.

**Rationale:**

- 1) Given the presence of COVID-19 infection in California and the San Francisco Bay Area leading to (as of 4/22/20 at 1700) a total of 37,350 cases in California and 1,420 deaths; and given cases in the region continue to increase, but at a markedly lower rate than had been expected, presumably because Shelter-in-Place strategies have had an effect;
- 2) Additionally, the economy and social well-being of much of the population of Lake County have been severely affected; it is important to consider whether certain activities and businesses previously deemed non-essential that are able to readily allow for social distancing, may safely resume.
- 3) Therefore, I plan to begin to relax the restrictions on social mobility and business activity in Lake County in a planned, strategic fashion, with the following principles in mind:
  - a. We will continue to comply with State-issued mandates.
  - b. We will seek to align with regional approaches to Shelter-in-Place whenever possible and appropriate for Lake County.

## ORDER OF THE HEALTH OFFICER No. C20-3(A4)

### Addendum (4) April 23, 2020

- c. It is highly recommended vulnerable populations (age 65 and over, people with underlying medical conditions that put them at increased risk of severe COVID-19 complications) should continue to shelter-in-place, and maintain strict social distancing;
- d. All people will maintain social distancing when outside of the home, and preferably use cloth facial coverings;
- e. People are discouraged from traveling more than 10 miles from their home for recreation or other non-essential activities. This recommendation applies to people coming from out of the area to visit, pursue real estate deals, and other activities due to the increased risk of viral transmission from out-of-county travel.
- f. People who choose to go out and participate in activities enabled by relaxation of restrictions are aware they do so at their own risk, recognizing they may be exposing themselves, their family, and friends to increased risk of COVID-19 infection;
- g. Initial activities that will be allowed will be chosen because of the ability for people to engage in them while maintaining adequate social distancing and avoiding group congregation. These distancing efforts clearly decrease the risk of spread of the virus should one of the participants be infected, thus limiting rapid spread of COVID-19 in our vulnerable community.
- h. Public Health will continue to monitor cases of COVID-19 infection, hospitalizations, and death; should a significant rise in cases occur, loosening of restrictions will be reversed.

The Health Officer may revise this Order as the situation evolves, and all service providers and managers of facilities subject to this Order must stay updated by regularly checking the Public Health website (<http://health.co.lake.ca.us/Coronavirus.htm>).
