Lakeport OptumServe COVID-19 Testing and Vaccination Site Closes *Lower Lake Town Hall Site to Continue Operations*

Lake County, CA (June 15, 2021) — Due to an unanticipated building maintenance need, OptumServe has made the difficult decision to close their Lakeport COVID-19 testing and vaccination site. This closure is effective today, though scheduled testing appointments for the remainder of the day are expected to proceed. The following answers to Frequently Asked Questions will help you navigate your next steps. Thank you for doing your part to keep your community safe!

I had a 2nd dose appointment scheduled at the Lakeport OptumServe Site. What Should I do?

If you had a June 15-21 OptumServe appointment scheduled in Lakeport for your second dose of the Moderna vaccine:

- Thursday, 6/17, Lakeport Elementary School Cafeteria (150 Lange St., Lakeport), 12-4pm.

If you had a June 25-July 12 OptumServe appointment scheduled in Lakeport for your second dose of the Moderna vaccine:

- Friday, 7/9, Lakeport Elementary School Cafeteria (150 Lange St., Lakeport), 12-4pm.

No future-dated 1st dose appointments were scheduled at the time of the clinic closure.

What if I am unavailable on the dates of the Lakeport Elementary School clinics?

Visit <https://myturn.ca.gov/> or call 833-422-4255 to schedule your appointment. Lake County-focused information and resources are also available at <http://health.co.lake.ca.us/Coronavirus/Vaccines.htm>. Please schedule your 2nd dose for the same vaccine (Pfizer/BioNTech or Moderna) you received at your 1st dose appointment. If you encounter barriers, and are unable to successfully reschedule, call 707-263-8174.

How many days do I have to wait after my 1st dose to receive the 2nd?

The recommended interval between doses of the Pfizer/BioNTech vaccine is 21 days. The recommended interval between Moderna doses is 28 days. When delays cannot be avoided, the CDC notes waiting up to 42 days between doses is okay.

Remember, you will be considered “fully vaccinated” under the State’s new Public Health Order 14 days following your 2nd dose of either Pfizer or Moderna. It will be safer for you to move about sooner if you get your 2nd doses as close to the recommended interval as possible.

Will the Lower Lake OptumServe Site Remain Open?

OptumServe’s Lower Lake Town Hall (16195 Main St.) COVID-19 testing and vaccination site will continue to operate:

- **Testing:** Mondays and Thursdays, 7am-11am, 12pm-4pm, and 5pm-7pm, excluding holidays
- **Vaccination:** Tuesdays, Wednesdays, Fridays, 10am-2pm and 3pm-7pm, excluding holidays

Visit <https://lhi.care/covidtesting> to schedule testing in Lower Lake. Call 888-634-1123 for assistance with scheduling.

Vaccination appointments are encouraged, and can be scheduled at <https://myturn.ca.gov/>. Walk-ins are also welcome.

What other COVID-19 testing resources are available in Lake County?

A current list is maintained at <http://health.co.lake.ca.us/Coronavirus/testing>. With more activities opening up, and nearly half (46.8%) of County residents unvaccinated, it is really important to get tested if you experience symptoms of COVID-19.
